

What program is best suited for me to get the optimal results out of my exercise program?

Champion vs. Champion Plus

We are happy to discuss both program options with you. Once we understand your needs we inform you which program you'll be in. The Boxing 4 Health Leadership Team has over 6 years of experience and we're confident you will benefit from the program we determine is best for you. However please note it is at the discretion of the Boxing 4 Health Leadership Team to make the final decision.

Champion Program

- ✓ Great 1:3 instructor to client ratio
- ✓ Low intensity, lower impact classes for people with Parkinson's
- ✓ Tailored for those that are experiencing a moderate concern with their balance, experiencing freezing episodes, experiencing falls or have mild to moderate cognitive decline.
- ✓ Are currently using assistive aids ie. cane, walker or wheelchair
- ✓ Want to be surrounded by a community of fighters that have your back!

Rate

\$240+tax per month (based on 2 classes per week) ***Prices may vary at your location and area.

At Boxing 4 Health we do our absolute best to keep our clients in the program for as long as it is safe. When we notice balance or cognitive impairment becoming a safety issue for both the client and the other participants in the class then we transition our clients into another program at Boxing 4 Health that is safe for everyone.

In 2022 we started to offer a New Champion Plus program that is catered to the individual and their specific needs!

Champion+ Plus Program

- ✓ Our Champion Plus program consists of one-on-one assistance throughout the entire class. From the moment you arrive an instructor will be assigned to you and will make sure you enter and leave the gym facility safely. This helps to ensure safety and engagement in the exercises and activities as well.
- ✓ Give your spouse or caregiver an hour to themselves to get their errands done or enjoy an hour of self-care for them self while you get your exercise in!
- ✓ Benefit from being given different exercises at different times throughout the class to challenge you and work on your weaknesses. E.g. Balance, Freezing
- ✓ Maximize your time during class and have your personal instructor help modify exercises if you have an injury or limitation.
- ✓ Want to be surrounded by a community of fighters that have your back! We will have you participate in the classes as much as possible because the social interaction is just as important as the physical one.

Rates

\$300+tax per month (based on 2 classes per week) **Prices may vary depending on your market, area and location

\$435+tax per month (based on 3 classes per week)

What if I'm not able to join the Champion Programs?

We are here to help you make your health a top priority. We hope you can continue to join our classes. If this isn't possible for you please let us know how we can help you to move forward outside of Boxing 4 Health.

Additional Options

✅ You can opt for one-to-one personal instruction outside of class hours. There are a minimum 10 sessions.

✅ Try one of our recommendations:

- Reach out to a Parkinson's specific Physiotherapist in the city.
- Explore Neurologic Physiotherapy clinics in the area
-

You do have options and we are happy to help you make the right one that works for you and your family best.

Sincerely,
