

Sleep Schedule/ Horaire de Sommeil

Write in the times to stay accountable to this schedule and to see how long it takes you to get on a schedule that works for you. Start off by writing in your sleep times but if it stays consistent then check marks are great too.

Inscrivez les heures pour rester responsable de cet horaire et pour voir combien de temps il vous faut pour établir un horaire qui vous convient. Commencez par inscrire vos heures de sommeil, mais si cela reste constant, les coches sont également parfaites.
